

Lesson 3 - Easy As A,B,C

In this lesson you will learn how about the different structures in music

What will I learn?

1

1. Create a piece of music using the A,B,A structure.
2. Use the built in loops.
3. Create a drum pattern by recording a pattern using your computer keyboard.
4. Stagger the entrance of your instruments.

2

1. Alter the volume using the volume tool.
2. Experiment with different effects.
3. Ask a partner to listen to your music. What do they like and what do they think could be improved?

3

1. Respond to the responses have been given by your partner.
2. Create a new structure of your own.
3. Use a midi keyboard and add another track.
4. Add sounds using a microphone.
